EDUCATION

University of Massachusetts, Amherst
Masters of Science in Computer Science

Sept 2021 - May 2023

Purdue University, West Lafayette, IN
Bachelors of Science in Computer Engineering

Aug 2017 - May 2020

EXPERIENCE

Ford Motors Co. - GDIA

Software Engineering, Internship

May 2022 - Aug 2022
Detroit, MI

- Developed endpoints in Spring Boot for tabled data manipulation
- Wrote SQL queries for data manipulation
- Developed Python Script to call Endpoints
- Designed Mobile Application for Ford vehicles in 2 Day Hackthon Challenge
- Skills Acquired: Spring Boot, Java Development, Hadoop, Pyspark, Python Scripting and Development

University of Massachusetts, Amherst - BioNLP

Application Developer Research Assistant, Research

Sept 2021 - present
Amherst, MA

- Developed iOS mobile application to help users in poverty find resources and programs to help them in times of need
- Integrated Mapbox software library, and Firebase to help users find tailored resources close to them.
- Designed web crawling programs to find resources and create a database of resources
- Fine tuning BERT NLP model to extract important information from resources to create a tailored experience
- Skills Acquired: iOS mobile development, Firebase, Mapbox, Natural Language Processing

Purdue University - VAA

Application Developer Research Assistant, Research

May 2022 - Aug 2022
West Lafayette, IN

- Designed and developed a GUI for a research team that tracks turkey for poultry production
- Designed web application with interactive characteristics with and intuitive ui/ux design. It contains 7 interactable components including video data manipulation, 5 statistical graphs, and an animation that traces the turkey's path, and a tab that showcases ML model used to track turkeys
- Abstract for my GUI accepted to Purdue's Undergraduate Research Conference.
- Skills Acquired: Python Development, Web Development, Plotly, UI/UX design, Model Integration

PROJECTS

596E: Machine Learning for Child Resue

Jagath Jai Kumar and Benjamin Glickenhau, UMASS Rescue Lab

Apr 2020 - Jul 2020
github.com/UMass-Rescue/mobile_app + /desktop_app

- Designed two React-Native Applications that aid law enforcement of different departments to canvas trackers and evidentiary material
- Developed mobile application and desktop application that connects to Fast API backend and MongoDB.
- Skills Acquired: Expo, React-Native, MongoDB, Fast API, Typescript, Javascript

Senior Design: EPCS 412

Prof. Nusaybah Abu-Mulaweh, Purdue University

Jul 2020 - Nov 2020
github.com/sne21star/mediapipe

- Designed and developed a Real Time ASL translator application that uses Computer Vision to translate American Sign Language (ASL) for Senior Design.
- Designed and developed iOS application that integrated Mediapipe and ASL translator ML model. Application integrates a static sign ASL translator tailored to the Indiana Sign Language.
- Fine tuned existing ML Model and integrated it with Google's Mediapipe software framework to interpret the ASL Alphabet.
- This application has nine different categories and also has a dynamic sign translator that can translate phrases in ASL alphabet
- Design Team lead for two semesters
- Skills Acquired: Computer Vision Model Development, iOS Development, Integrating CV ML Model, Management Skills

Continuous Analysis of Many CAMeras

Dr. Lu, CAM2

Mar 2020 - Aug 2020
arxiv.org/abs/2005.09091

- Research team that revolves around using worldwide cameras and interpret data from the Cameras
- Designed and developed web scraper that could parse different live cameras for information about the public and be used to decipher mask wearing during COVID-19 pandemic.

TEACHING

Ideas to Innovation I and II (ENGR 131 and ENGR 132)

Jan 2018-May2018

Purdue University

- Taught MATLAB excel macros
- Project Description 2

Advanced C Programming (ECE 264)

Aug 2018 - May 2019

Purdue University

- Taught concepts in C and guided students with tools such as valgrind and gdb for debugging purpose
- Project Description 2

Python for Data Science (ECE 20875)

Jan 2020 - Dec 2020

Purdue University

- Taught data Science concepts, introduction to machine learning, and extensive understanding of how to use python and its libraries

TECHNICAL SKILLS

Programming languages: Python, Java, C, C++

ML/AI: Pytorch, Numpy, Pandas, Matplotlib

Web Technologies: HTML, JavaScript, Typescript

Miscellaneous: SQL, Git, Windows, Firebase, Mongo

RELEVANT COURSEWORK

Machine Learning: Neural Networks, Machine Learning, Artificial Intelligence, Python for Data Science

Software: Advanced Algorithms, Software Theory, Object Oriented Programming
